NEW-JERSEY ITEMS.

REPUBLICAN MEETING .- A regular meeting of the Hudson County Association was held last evening at their headquarters in Jersey City. Col. James of Wisconsin made an interesting speech, well calculated to strengthen and encourage the Republicans of New-Jersey. The attendance was large. The next meet-ing of the Club will be held in Park Hall, and will be addressed by Isaac W. Scudder, esq., of Jersey City, and Wm. H. Fry of New-York.

There will be a grand Mass Meeting of the Republicans of Morris County, at Morristown, N. J., on Thursday next, at 2 o'clock, on the Public Square (Washington Headquarters). This promises to be an en-thusiastic gathering of the friends of Freedom in Mor ris County. The following speakers are announced to be positively present: The Hon, N. P. Banks (Speaker of the House) of Mass.; George W. Curtis, esq., of New-York; the Hons. John Van Dyke and George H. Brown, and R. S. Field, esq., of New-Jersey. Gov. A. H. Reeder of Kansas will speak in the evening.
The Hon. Caleb B. Smith of Indiana, the Hon. James
M. Root of Ohio, and Lieut.-Gov. Raymond of New-York are also expected to be present.

The indications in favor of Fremont and Dayton in New-Jersey are cheering. Their strength is constantly increasing by accessions, not only from the masses bu from among the prominent men of the opposing parties The Republican clubs of the cities and towns in that State are holding large and spirited meetings, and are working with considerable zeal for the diffusing of the truth among the people on the subject of the politics of this campaign. Documents are being thoroughly circulated, and with good effect.

The Railroad bridge over the Delaware River at Easton, which fell some three weeks ago, is so far reconstructed that the connection will be resumed and ears pass over the bridge during the present week. The Company have been engaged upon this work night and day since the occurrence.

RAILROAD ACCIDENTS.—A fireman named Henry Revins, on the engine of the early train from New-York on the Central Railroad, on Friday morning, while in the act of adjusting some wood upon the tender when near Clinton, slipped and sell from the train, breaking his neck and causing instant death. He was an estimable man, and leaves a wife and two children at Philipsburg. The engine of the returning excursion train to Zaston ran off the track and down an embankment about 11 o'clock the same morning. The engine turned over, but no one was seriously injured.

Mr. John C. Underwood of Virginia, and J. A. Briggs of Ohio, will address the Republicans of Elizabethtown on Thursday evening of this week.

LAW INTELLIGENCE.

UNITED STATES DISTRICT COURT-SEPT. 15-Before Judge BETTS.

ONE OF THE BRAMAN SLAVE CASES-DE CASTRO

The United States agt. Piscido De Castro.

The United States agt. Piscido De Castro.

This morning, after hearing argument on the point, the Court decided that those who are co-defendants with the accused at present on trial, can not be called as witnesses, either by the defense or the prosecution, until the name be removed from the record by the entry of a not prox or by a verdict; and this rule was applied even to the case of a person who has stood his trial on a separate indictment and been acquitted, as is the fact with Da Cunha.

After considerable delay, from the non-attendance of witnesses Henjamin Upton, a merchant, formerly United States Consul at Pars, and engaged in the Fara business, took the stand and testified to the good character of the accused, and his employment in the engineering business. No other witnesses having arrived, the case closed, and after arguments and a short charge the Jury went out. After an absence of some fifteen minutes, they returned with a verdict of acquittal.

SUPREME COURT—SPECIAL TERM.—SEPT. 16.—Before Judge ROOSEVELT.

THE BROADWAY RAILROAD ONCE MORE.

J cob Sharp ast The Mayor, &c., of New York.

The interminable but intermittent Broadway Railroad case came up to-day before Judge Roosevelt Judge Strong, it will be recollected, granted an injunction last Winter, restraining the Mayor from signing a resolution of the Common Council, rescinding the grant to Jacob Sharp and others. Judge Strong setted in the premises as in his own district, though the argument was heard in this city.

Bubsequently Judge Rockwell made an order changing the place of trial from the County of Kings to this County. An appeal was taken from this order to the General Term of Kings County. The next step was an order, on the 6th of September, by Judge Strong, staying proceedings while such appeal was pending. To-day Henry Hilton, in behalf of the defendants, asks Judge Roosevelt to weate Judge Strong's order, in order

by Judge Strong, staying proceedings while such appeal was pending. To-day Henry Eliton, in behalf of the defendants, asks Judge Roosevelt to vacate Judge Strong's order, in order that the original appeal from the injunction order may regularly be brought on before our General Term this week. He argued that an order changing the place of trial was unappealable, and that Judge Strong had no right to stay proceedings in an action triable in this district; and further, that this order bears on its face evidence that it was inadvertently granted.

Mr. D. D. Field opposed the motion, on the ground that Judge Strong had authority to make the order in question, and that it was such as should have been granted, because it was most proper that the appeal from the order to change the place of trial should be heard before the appeal from the injunction.

Heard in part, and to be continued to-morrow.

ANOTHER OF THE IRVISO HOUSE CASES.

John Purchase agt. Joseph Navior.

Action on a promissory note for \$500, made by the defendant, who was formerly proprietor of the Irving House. The note was given in December last, for meat furnished the House by a butcher in Washington Market. The main defense is that there was no consideration, it being a mere renewal made by Gallear to oblige him, who was at the time the real owner of the House. A second defense was that the plaintiff was not the bona fide holder. Verdict for the plaintiff for the full amount.

SURROGATE'S COURT—Sept. 16—Before A. W. Bradford THE WIDOWS' CASE.

Rebecca Bisck agt. Elizabeth Biack.

This case came on again to-day, and the evidence being all in on the part of the plaintif, several witnesses were examined on behalf of the defendant, to the point that Mrs. Rebecca was a resident of New-Jersey in Sept. 1849, when the process in the divorce suit is alleged to have been served upon her. The return of the Sheriff, who was proved to be dead, and the entry of service suit is alleged to have been served upon her. The better brands of Flour are firm, but the low grades are heavy, and the market closes in favor of the buyer; about 9,000 bbls. sold at \$5 90 2\$6 35 for Southern is also easier, with sales of 2,100 bbls. at \$7 15@\$7 50 for mixed to good brands. Prime Wheat is firmer and in good demand; the export demand is larger than for flour. There is a fair export demand for Corn, but the market is easier. Pork is firm, with sales of Mess at \$20, and Prime at \$17 624 2\$18. The movement in Lard is large, and prices are advancing; sales of 1,000 bbls. at 14 2 14 c. Coffee is active and firm. The circular of Mr. Wm.

The business in sugars is large, and prices have now nearly recovered to the highest point touched. Sales of 2,350 hhds., mostly Cuba, at 71 @84c. The circular of Messrs. Pond & Sage gives the receipts and sales

as ionows:

"Receipts since 1st inst., are 2,705 hhds. Cuba, 1,464 hhds. Porto Rico, 275 hhds. Pruglish Island, 1,774 boxes, 143 hhds. "Sales same time are 13,575 hhds. Cuba, 2,104 hhds. Porto Rico, 327 hhds. New-Orleans, 245 hhds. Melada, 2,500 boxes, 7,260 bags Manila." Molasses is in fair demand at full prices:

The Tea sale to-day was well attended, but the bid-ing was not spirited. The Oolongs sold lower. Green sold at previous prices. Cotton is steady and in fair demand. The sales of the week are 10,000 bales, and the export 2,467 bales.

The crop statement of Mr. Wright makes the to-tal for the season just closed 3,527,845 bales, and places the quantity grown in the Uhited States at 3,335,000 bales, sgainst 3,178,000 last year, 3,000,000 in 1853-4, 3,360,000 bales in 1852-3 and 3,100,000 in 1851-2, The export to Great Britain is stated at

1,921,000 bales, which is scarcely a fair comparison with the amount 1,547,716 bales exported during last season, several cargoes cleared for British outports, but landed in other countries, being this year for the first time deducted. The proper comparison with the figures given for last season would be 1,950,000 bales; hereafter the deductions will be made, and the 1,921,-000 will be the correct comparison for the future. The consumption the past season in the United States has been 653,000 bales, against 594,000 last year. The trade is in a good condition and an increase during the

coming season is quite expected. Mr. Wright's Circular also says: Mr. Wright's Circular also says:

One.—The accounts from the South in relation to crop prospects, tend to confirm the idea that in the Atlantic States it will be less than last season, while from the Southern saction Southerwastern section the reports are contradictory. The position at this time is somewhat critical, for under a favorable continuance of suitable weather and a late frost, the crop cannot well be estimated at over 3,300,000, while an early frost may cut it off materially and the yield prove less than 3,000,000 bales. It is universally admitted that an early frost, this year, will prove very disastrous, it position being now more susceptible in this regard than for several years past.

The following is a statement of the movement in cotton since the list September last, as compared with the previous three years:

statistics of exports of Breadstuffs for the past ten years. The exports for the past year, it will be seen, are largely in excess of the previous year in Flour and Wheat, and

in Wheat an excess of any year in the ten: EXPORTS OF BREADSTUFFS TO GREAT BRITAIN AND IRELAND, FROM SEPT. 1, 1855, TO AUG. 31, 1856.

The business of the Sub-Treasury was: Receipts, \$222,002 00, including \$50,000 for Transfer Drafts on Boston; payments, \$211,726 60, including \$67,000 California Drafts; balance, \$13,751,316 27. Tomorrow the Treasury will probably disburse \$115,000 on account of the war debt of California, a warrant for that amount having been issued to-day to a leading house in the street.

Among the passengers by the steamer to-morrow will be Mr. Watts Sherman, of the house of Duncan, Sherman & Co.

The value of California Bonds has been depressed in some measure by the impression that the issue above \$300,600 was unconstitutional. A writer in The San Francisco Globe throws some light upon this question, and insists that the whole issue is constitutional. He says:

question, and insists that the whole issue is constitutional. He says:

"At the time of the formation of the Constitution there were many wild projects in the heads of some of our leading citizens, that produced a fear that the credit of the State would be used for making a railroad and other proposed improvements. Thus originated the 8th Article: The Legislature shall not, in any "manner, create any debt or debts, liability or liabilities, which shall singly or in the aggregate, with any previous debts or liabilities, exceed the sum of \$300,00, except in case of war, to repel invasion or suppress insurrection, unless, &c.' We must read the entire, and not take an isolated portion of the Constitution. The last clause of the Constitution provides that: The limitation of the power of the Legislature, contained in article 8th of the Constitution, shall not extend to the first 'Legislature elected under the same, which is hereby authorized to negotists' (or by council provide) 'for such amount as may 'necessary for the payment of the State Government.' This surely meant the expenses for all future time. The Legislature assembled the next 'trimestre' so understood it. Every subsequent Legislature has so understood it. The first Legislature, in accordance with this provision, defined the amount to be paid to the several officers, and for the general conducting of the affairs of the Government, provided for the payment of extraordinary salaries; \$10,000 to Governor and Supreme Judges; Treasurer, \$9,000. Controller, \$8,000; Surveyor, \$7,500; Attorney-General, \$7,000; District Judges, \$4,600 or \$8,000, and Members of the Legislature debt, so far as the Constitution is concerned; as the expenditures have not gone out of the trace, and have been confined to what the representatives of the people have by law declared to be "necessary expenses of the State Government." These matters have not gone out of the trace, and have been confined to what the representatives of the people have by law declared to be "necessary expenses

Marié & Kanz for the steamer. Mr. Marié of this firm arrived yesterday, by the Atlantic.

"Since our advices of 8th instant, the resumption of some animation in our stock market then noticed, has gone on increasing. A rather active speculation has prevailed on the securities and shares of a number of the leading Railroada, resulting, after a few finetuations, in a considerable advance of prices. This rise was particularly large on Illiania Central, both bonds and shares, which attracted special attention. State Stocks have scarcely participated in this movement, and during the continued absence of European demand for general investment, City and County Bonds, as also the Bonds of Western Railroada, have with few exceptions remained neglected.

"While the regular receipts of gold from California are uninterrupted, specie shipments to Europe have remained moderate, and money coutinued easy to procure. The epoch is at hand, predicted by many, when a great stringency in the money market ought to be looked for, but none of the signs, usually forerunners of such an event, have as yet been felt. The approach of the season when a full supply of exchange on Europe is received from the South, diminishes the probability of any great loss of specie by our banks, and the fear of seriou stringency during this Autumn is being gradually dispelled.

"State Stocks have scarcely experienced my succutations, excepting an advance of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, and of 3 per can on California 7s, 1873, an

Mesers. Decoppet & Co. 88y:

"Since our advices of the 8th inst., the improved movement then noticed has continued, and Railroad Stocks especially show a considerable advance upon our last quotations, the largest rise being in Illinois Central Stock, which went up 7; \$\frac{1}{2}\$ cent in a few days. The outside demand for dividend-paying Western Railroad stocks generally has much increased, causing an improvement in prices of from 1 to 3 \$\frac{1}{2}\$ cent.
